

Step into the NHS

There are over 350 different careers available in the NHS!
From an apprentice, to an exercise physiologist and a finance assistant.

- Visit this website:
<https://www.stepintothens.nhs.uk/careers/take-the-test> complete the 30 questions quiz based on your personality and find out what NHS careers would suit you.
- Based on your answers, you could research the careers in more detail.
- Choose one career and create a job description for this career.

A job description spells out the responsibility of a specific role, or in other words, it explains what you need to do. It also details any qualifications, experiences and skills required to do the job properly.

- Write your job description for your chosen role (use the template to help you if you wish)
