Dear Parent/Carer

**Re: Covid Secure Practice – Use of Face Coverings**

You will be aware that following government updates and communication from school there are heightened measures across society with regards to Covid secure practices. In school our safe practices continue with staff and students responding well to requirements throughout the school day.

Our biggest challenge at present is the number of face coverings we are having to distribute to students who are arriving without them daily. Can I please remind parents that although we would always have a small stock of face coverings for emergency use, it is students' and families' responsibility to ensure that they arrive at school with a suitable face covering which can be used throughout the day; these are the same regulations we are all expected to follow across society and within our day-to-day lives.

The requirement to wear a face covering in areas of the school will remain in place through to the end of term and is likely to be required upon our return in January; we would ask all families for their support with this.

Thank you in anticipation for your support.

Yours sincerely

**Mr L Tristham**
