

Nat Dip/Ext Cert Health & Social Care Unit 14	Road Map				
Physiological Disorders and their Care The aims are as follows: LG1: Knowledge LG2: Application LG3: Skills	Assessment Grades				
	Topic procedures A, B & C				
	Enabling Individuals with Additional Needs to face daily challenges	12/A.P1, 12/A.M1, 12/A.D1 12/B.P2, 12/B.P3, 12/B.M2, 12/BC.D2 12/BC.D3 12/C.P4, 12/C.P5, 12/C.M3, 12/C.M4			
Themes	Learning Goals/Outcomes/Content				
Causes and effects of physiological disorders - Genetic - Lifestyle - Environment Signs and symptoms of physiological disorders - Observable - Individual experience (specific to assessment)	LG1: Identify types of physiological disorders and effects on the body systems and functions LG2: Recognise the sign and symptoms of physiological disorders - Endocrine system disorders				
	LG1: Identify types of physiological disorders and effects on the body systems and functions LG2: Recognise the sign and symptoms of physiological disorders - Nervous systems disorders				
	LG1: Identify types of physiological disorders and effects on the body systems and function LG2: Recognise the sign and symptoms of physiological disorders - Musculo-skeletal system disorders				
	LG1: Identify types of physiological disorders and effects on the body systems and function LG2: Recognise the sign and symptoms of physiological disorders - Respiratory system disorders				
	LG1: Identify types of physiological disorders and effects on the body systems and function LG2: Recognise the sign and symptoms of physiological disorders - Circulatory system disorders				
Tutorial Support Independent Research and Completion of Task 1	Assignment Launch – Informed Planning Task 1 A: Investigate the causes and effects of physiological disorders B: Examine the investigation and diagnosis of physiological disorders NOTE: BTEC stipulations of 15 hours of independent learning and 1:1 tutorials for each task.				
Diagnosis of physiological disorders Diagnostic procedures for physiological disorders	LG2: Recognise the general measures that may be undertaken to diagnose physiological disorders - Blood pressure - Body temperature - Blood tests LG2: Recognise the techniques used to make a diagnosis related to a particular body system - Lumbar puncture - Biopsy				
Treatment and support for physiological disorders	LG1: Identify the provision of treatment and support - Medication - Surgery - Rehabilitation				

(specific to assessment)	<ul style="list-style-type: none"> - Complementary therapies - Lifestyle changes 			
<p>Impact of disorders on service users</p> <ul style="list-style-type: none"> - Physical - Mental and emotional - Social Impact <p>(specific to assessment)</p>	<p>LG2: Understand the care needs of an individual with a physiological disorder</p> <p>LG2: Explain how a treatment plan would improve the health and wellbeing of an individual with a physiological disorder</p>			
<p>Tutorial Support</p> <p>Independent Research and Completion of Task 2</p>	<p>Assignment – Informed Planning Task 2</p> <p>C: Examine treatment and support for service users with physiological disorders</p> <p>D: Develop a treatment plan for service users with physiological disorders to meet their needs.</p> <p>NOTE: BTEC stipulations of 15 hours of independent learning and 1:1 tutorials for each task.</p>
