Information to support Distance Learning for students self isolating following confirmed case on Saturday 12th June 2021

Dear Parents / Guardian

I am writing to you to confirm the arrangements for accessing school work during the period of self-isolation. As you are aware, identified Year 8 students and other close contacts are not required to return to school until Tuesday 22nd June; for all other students school remains open.

During this period students will access their work through Satchel. This is the school's main method for sharing distance learning. However, where practical the school will make use of Microsoft Teams to support this and offer a live element to teaching.

There are resources available on the school website to support distance learning that can be found on the school website - <http://www.oldburywells.com/parent-information/distance-learning>. However if you require any further assistance please do not hesitate to contact the school school@oldburywells.com.

I have collated some frequently asked questions to ensure that this period of distance learning is successful. If you wish to view the full distance learning policy this is available on the school website and also includes a list of contact details www.oldburywells.com

How often will the work be set?

Teachers will continue to set work through the Satchel One app for all timetabled lessons. Pupils will receive 5 lessons of work per day to reflect their timetable. These will be visible in Satchel One as classwork.

When will students start to receive work?

For the first day of self-isolation pupils should look to complete any outstanding homework tasks and access any work from the Oak National Academy - <https://classroom.thenational.academy/>. Teachers will start to issue work from the second day of self-isolation allowing them to prepare distance learning resources. Students should also use this opportunity to ensure they are prepared for the work by checking passwords, setting up study space and ensuring that they have the correct equipment to engage fully in the work set.

Will teachers continue to follow the curriculum and normal lessons?

In the majority of cases teacher will adapt lessons to carry on as normal and follow the detailed schemes of work that exist in school. Therefore, on a successful return to school, students will be able to carry on with their normal learning journey. However, in some more practical subjects this may not be possible, but work will be set that is relevant and again prepares students for any future learning. As a result of this it is important that pupils fully engage in the work that is set.

Will teachers be contactable?

Yes – Pupils can contact teachers through the Satchel One app messaging facility. In some instances please remember that teachers are delivering lessons to students who continue to receive face to face teaching so there may be a delay. However, there is an expectation that teachers are contactable during the normal timetabled lesson. Therefore, it is important that students aim to stick to the normal timetable to receive the best possible support and guidance.

Is there a live element to lessons?

Where possible Yes – Please remember where students are taught as a form group this is likely to be the case. However in some lessons where groups are set or have mixed form groups it is not possible for teachers to deliver face to face and offer Teams at the same time. In this instance pupils should use the messaging feature in the Satchel One app if they require further support.

Any live lessons will be offered through Microsoft Teams. For example, this means that a teacher may explain or model a task through Teams and then be contactable (live) in the background for any further questions – just as they would in a lesson. The code of conduct and guide sheet for setting up teams can be found [here](#)

How will teachers mark work?

Teachers will continue to follow the school's assessment policy and mark work with the usual frequency and format of feedback. Where teachers give feedback to students this will be visible in the Satchel One app. Teachers may ask pupils to record this in their exercise books.

How do students submit work?

Students will submit any work through the Satchel One app. The easiest way to do this is to upload it to the app. Full supporting instructions can be found [here](#). To ensure teachers can see how well students are doing and to track engagement pupils are required to upload evidence of work after each lesson. This can be as simple as taking a picture of the completed work and uploading to Satchel One through the app.

How as a parent/guardian can I see the work that has been set?

As a parent/guardian you can access the work and monitor its completion by downloading the Satchel One app. If you need a reminder of your login details, then please contact the school and we can issue you with a secure pin allowing you to see the work set and any feedback. school@oldburywells.com.

What should I do if my son/daughter is having IT problems accessing the work?

There are support resources that will guide pupils through in the learning Zone on the school website. Please click [here](#)

These should be read carefully in the first instance, but if you require IT support – please contact the school and we will do our best to get you back on track. school@oldburywells.com

What is the best way to support my child?

It is best that student stick to their normal timetabled routine, allowing them to make the return to school as easy as possible, but to also receive any live element and support from their teachers. A copy of the pupil's timetable is available through the Satchel One app. The times of the lessons are as follows:

Period/Session	Time
Tutor Time	08.45 – 09.10
1	09.10 – 10.10
2	10.10 – 11.10
Break	11.10 – 11.30
3	11.30 – 12.30
4	12.30 – 13.30
Lunch	13.30 – 14.00
5	14.00 – 15.00

What should I do if I need IT access?

There is no expectation that all work needs to be completed on a computer. In some instances this can slow the learning down. However, the software that the school has selected can be used on a phone, tablet or any computer.

The best way to work is to access the set work through the Satchel One app and any live elements through Microsoft Teams. Complete the work in your normal exercise book and simply take a picture at the end of the session and upload this to the teacher.

The DFE have allocated the school with a limited number of devices to support distance learning. If you wish to be considered to borrow one of these devices or may need a wireless router to allow access to the internet please contact myself directly scott.wycherley@oldburywells.com and I will see if I can assist you. Please remember this is not guaranteed and any loaning of equipment will be based upon need and circumstance.

If you require any assistance throughout this period of distance learning please do not hesitate to contact the school.

Kind regards

Scott Wycherley
Deputy Head Teacher
