

Dear Parent or Guardian,

The 3-in-1 Teenage Booster and Meningitis vaccination (DTP & MenACWY)

The School Aged Immunisation Service (SAIS) will shortly be offering the 3-in1 Teenage Booster (Tetanus, Diphtheria and Polio vaccinations) and (Meningitis ACWY) for all students in **Year 9**. The vaccination is **free, safe and effective**.

Meningitis ACWY vaccination:

- Helps to protect your child against four types of meningococcal bacteria (groups A, C, W, and Y) that can cause meningitis (inflammation of the lining of the brain) and to protect against septicaemia (blood poisoning).
- These diseases are very serious and can be life threatening especially if not diagnosed early

The DTP - Td/IPV vaccine also known as the 3-in-1 vaccine teenage booster:

- Is given as a single injection.
- Boosts your child's protection against three separate diseases: tetanus, diphtheria and polio.

To find out more information about the Meningitis ACWY vaccine, visit:

<https://www.nhs.uk/conditions/vaccinations/men-acwy-vaccine/>

To find out more information about the 3-in-1 vaccine teenage booster - Tetanus, Diphtheria and Polio vaccination, visit:

<https://www.nhs.uk/conditions/vaccinations/3-in-1-teenage-booster/>

The team will be visiting **Oldbury Wells School** on **20 March 2025**

Once you have read through the information, please complete the electronic consent form

[Please click here or scan the QR code to complete your child's School Leaver Booster vaccination](#)

The link below will close at 9am on 6 March 2025

Consent process for pupils in year 9:

If we do not receive a parental or carer consent decision for the vaccination, using the above process, we may allow the young person to self-consent to the vaccination on the day. We will only offer this opportunity to young people in year 9 and above, who have read the appropriate vaccination information and who are assessed by a health professional as having enough understanding and competence to fully appreciate what's involved. Only those who are clearly comfortable in receiving the immunisation will have it.

If parents or carers have responded and refused consent, the decision cannot be overruled by a young person and therefore, we will not vaccinate.

We will always ask a parent/guardian to consent in the first instance, we will only allow a pupil to self-consent if a parent/guardian cannot be contacted on the day.

How to give consent or decline for your child to get the vaccination

The virtual assistant will ask you for your child's NHS number, if you don't have this you can still complete the form either by using the search option to find your child's NHS number or by inputting their details.

Once your child has been identified, the virtual assistant will ask you questions in relation to the vaccine. Your child's details will be sent to the team and your child will be vaccinated in school.

If you **do not wish** for your child to receive this vaccination, please select 'No Consent' on the question that asks which vaccination you are consenting to.

If you have an issue with accessing the site or it appears blank this is likely due to you attempting to access the form whilst connected to the internet or via a device that has security settings that prevent you being able to see the form (for example, a work phone or computer). Please try again whilst using your own phone/computer connected to your internet at home.

Please note, if you are accessing on a mobile it can take a few minutes for the virtual assistant to appear.

If you are unable to complete the form online or have any questions you wish to discuss with someone from the team, please contact the team on 01743 730028 or email shropcom.immunisationteam@nhs.net.

If you have consented to your child receiving the vaccination and then change your mind, please **do not** submit a new consent form, please telephone the team on 01743 730028 or email shropcom.immunisationteam@nhs.net to let us know.

When you have completed a successful consent form you will be issued with a unique reference number. Please make a note of this number as it can be used should you need to contact us.

Measle, Mumps & Rubella (MMR)

We are also able to offer the MMR vaccine, which your child should have completed prior to starting in primary school. If you believe your child did not receive one or both doses of MMR and this is something you wish them to complete, contact us and we can arrange for this vaccination to be given in school at the same time as your child's other vaccines.

To find out more information about the MMR vaccine, visit:
<https://www.nhs.uk/conditions/vaccinations/mmr-vaccine/>

Yours sincerely,

Debbie Jones,
SAIS Clinical Lead

How did we do?
